

CARING FOR FAMILIES
SINCE 1942

Boyer Children's Clinic Rising Stars Preschool Program (20-42 months)

Our groups are part of our inclusive early childhood program where children with and without developmental delays can learn and grow together. We provide a safe, caring environment for children ages 20 months to 42 months. Instruction is individualized and tailored to each child's needs and unique skill sets as they are supported in learning and building social skills together while having fun!

Rising Stars Toddler Preschool includes twice-weekly, two-hour sessions consisting of group activity experiences in a structured setting including music time, free play, art, snack time, and playing in our big gym. Each week, the theme and toys in the toddler groups change to facilitate curiosity and active exploration. Activities and materials are chosen to reflect the unique child interests and needs of each group.

At Boyer Children's Clinic, we believe:

- Every child is capable of learning, making friends, and developing independence
- Parents and the community are essential partners in the lifelong learning process
- Children learn social, self-help, pre-academic & communication skills through guided play
- Learning is the most meaningful when it is relevant and fun
- Our playgroups are a great stepping stone to preschool

Our Staff:

Each Rising Stars playgroup is staffed by a **Master's-level certified teacher** and a teacher's aide or instructional assistant. Frequently joining the group will be physical, occupational and speech-language therapists. All staff members hold a CPR and First Aid certification.
